| <b>CAGE Code:</b>                     | Available upon request                                                                                                                                                              |
| <b>NAICS:</b>                         | Categories available upon request (Consulting . Computer Systems Design . Professional Services . Training)                                                                         |
| <b>SAM.gov Status:</b>                | Active -- registration verified upon request                                                                                                                                        |
| <b>Set-Aside:</b>                     | Service-Disabled Veteran-Owned Small Business (SDVOSB)                                                                                                                              |
| <b>Socioeconomic:</b>                 | Veteran-Owned, Service-Disabled Veteran-Owned                                                                                                                                       |
| <b>Contact:</b>                       | apex-govcon-partners@polsia.app                                                                                                                                                     |
| <b>CORE COMPETENCIES:</b>             |                                                                                                                                                                                     |
| <b>Captive Company Formation:</b>     | Stand up an SDVOSB subsidiary entity   Pass SBA scrutiny on first attempt   Books and governance clean from day one   Preserve the client's existing back-office                    |
| <b>SDVOSB Certification:</b>          | SBA Veteran-Owned Small Business certification   Ownership, control, and eligibility narrative   Documentation package prep + submission   Status-change stewardship through award  |
| <b>DCAA Compliance:</b>               | Indirect-rate structure + timekeeping system   Incurred-cost submissions + forward pricing   Audit-ready accounting backbone   Pre-award and in-performance support                 |
| <b>Contract Setup:</b>                | Post-award subcontracting plans   Small-business subcontracting compliance   Agency kickoff coordination   Deliverable schedule + program-office liaison                            |
| <b>SAM.gov Strategy:</b>              | Registration accuracy + NAICS placement   Set-aside selection and small-business profile   Tuned SAM posture so set-aside notices find you   Positioned to bid, not chase paperwork |
| <b>Proposal Support:</b>              | Structure, compliance matrix, and management plan   Past-performance and price-to-win writing   FAR Part 15 evaluation-factor discipline   SDVOSB sole-source mechanism framing     |
| <b>DIFFERENTIATORS:</b>               |                                                                                                                                                                                     |
| <b>Veteran-Led, Veteran-Informed:</b> | Every engagement is run by a service-disabled veteran who carries the SDVOSB status on Apex's own federal work -- not briefed from a deck.                                          |
| <b>FAR-Grounded Discipline:</b>       | Work is anchored to FAR Part 15 and FAR Part 19, structured to withstand SBA and DCAA scrutiny instead of optimized for the flashiest pitch.                                        |
| <b>Small-Business-First:</b>          | We plug into the operation you already run and leave you with a self-sufficient firm -- not a permanent dependency on ours.                                                         |

Past Performance: Captive company formation, SBA certification packaging, DCAA-compliant accounting posture, contract setup, SAM.gov registration strategy, and proposal / price-to-win support across federal civilian and defense set-aside work. Specific past performance references, contract values, and customer details available upon request.
